

Electric concealed socket 12W 2,4A - USB charger,
specially developed for flush installation.

Product characteristics

high/width/length	32/45/52 mm
weight	76 g
output voltage	4,75 - 5,25 VDC
energy efficiency	85%
power loss (standby consumption)	50 mW
expected product life cycle at full load	30 000 h
overvoltage category	II
work temperature	0-40°C
output current	0,01 - 2,4A
input voltage	100 - 250V ~ 50 / 60Hz
input current	max. 1,5A
temperature between	-20°C - 80°C
